-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## **DETAILED ACTION**

### ***Allowable Subject Matter***

1. Applicant is advised that the Notice of Allowance mailed 05/16/2005 is vacated. If the issue fee has already been paid, applicant may request a refund or request that the fee be credited to a deposit account. However, applicant may wait until the application is either found allowable or held abandoned. If allowed, upon receipt of a new Notice of Allowance, applicant may request that the previously submitted issue fee be applied. If abandoned, applicant may request refund or credit to a specified Deposit Account.

2. Prosecution on the merits of this application is reopened on claim 2 considered unpatentable for the reasons indicated below: Applicant's claims are broad, and the term play unit does not exclude prior art from other areas. Rather, many different types of art can be construed as play and training equipment as set forth in the rejections below.

### ***Claim Rejections - 35 USC § 102***

3. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

4. Claims 2, 5-8, and 12 are rejected under 35 U.S.C. 102(b) as being anticipated by Watanabe et al. (U.S. 4,363,499). Watanabe teaches a device comprising a post (13), a connector comprised of a rubber bushing (13a), a mounting shaft (5) attached to the end of a play unit, wherein the play unit comprises a frame (4) forming a closed loop

Art Unit: 3764

and a number of members inside the frame. Referring to claim 5, as best understood, the members are bowed or curved to a degree towards the frame. With respect to claim 6, Watanabe teaches an outer shell, with the bushing located therein. With respect to claim 7, Watanabe teaches the connector including an inner tube. With respect to claim 8, Watanabe teaches discrete bushing elements. Referring to claims 12, Watanabe teaches the connector maybe mounted within the post.

### ***Claim Rejections - 35 USC § 103***

5. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.
6. Claims 3-4 and 13 rejected under 35 U.S.C. 103(a) as being unpatentable over Watanabe et al. in view of Land (U.S. 4,815,331). With respect to claims 3-4, Watanabe teaches the claimed invention except for the play unit frame being elliptical in shape. Land teaches an analogous device and in column 4 lines 9-11 that having oval shaped frame or any other shaped frame for that matter is a design consideration. With respect to claim 13, the claimed feature merely amounts to a rearrangement of existing parts and therefore would be considered obvious to one of ordinary skill.
